Tippecanoe Veterans.

About Forty of Them Call on President Harrison.

HOW THEY WERE RECEIVED

A Short Reception, in Which Speaking and Hand-Shaking Was the Prominent Feature—Making Appointments—Other Dispositions from the National Capital.

WASHINGTON, May 10.—About forty survivors of the Tippecanoe veterans who voted for Gen. William Henry Harrison in 1840, called at the executive mansion Thursday, and paid their respects to the president. About 11:45 the veterans began assembling in the east room of the mansion and formed in a circle. At noon the president, accompanied by Mr. A. M. Clapp, the chairman of the Tippecanoe Veterans' association, and Gen. Schenck, walked into the room and stood just inside the circle, while Mr. Clapp read an address in which the veterans expressed confidence in the ability and capacity of the chief magistrate.

In reply, the president thanked Mr. Clapp and his associates for the honor done him in making the visit, and concluded by saying: "I beg to thank you for your call to-day, and to say that it will remain a pleasant memory in mine."

Then the forty old veterans, and nearly every one had something to say about William Henry Harrison, and the president's face was a constant smile. While the hand-shaking was going on, Gen. Schenck mentioned to tell a story about himself and President William Henry Harrison while they were campaigning in 1840. "There was," he said, "a big crowd of men as at a town one night, and I was that time Harrison was getting tired of the hand-shaking, and thought, 'I was the general and grasped my hand. This gave me an idea. "Should not," said I to the general, "and let me shake hands for you." Well, do you know, every person that remained at that crowd grasped my hand in the belief that I was Old Tippecanoe."

After the hand-shaking was over, the president went back to his desk and the veterans left the White House.

Among the veterans who called were Dr. E. H. Smith, of Divisadero county, Va.; Maj. Gen. P. E. Connor, of Iowa, Col., a soldier of the Mexican war; John Mitchell, of Washington; R. S. McGeorge, of Washington; ex-Captain Daniel Kramer, of Washington; Lawson P. Knoch and W. T. Kitchin, of Montgomery, Ala.; Albert Ellis, of Montclair, N. J.; A. J. Van Camp, of Washington; Samuel C. and H. J. Smith, of Des Moines, Iowa; George McKew and Joshua Johnson, of Pennsylvania; Joseph C. Ringwalt, of Washington; Charles Garrett, of Washington; C. S. Von Fagin, Isaac Strokin, N. T. Ellsworth and H. N. Griswold, of Madison, Iowa county, O.; John L. Haygood, D. C. Pulkerton and H. M. L. Amsel, of Virginia; J. S. Brown, Edmund S. Monroe, A. M. Clapp and Gen. Robert C. Schenck, of this city.

Agreeing on Appointments.

WASHINGTON, May 10.—Secretary Windom had a long conference yesterday with the president concerning appointments under the treasury department. The appointment of Asa Martin, the present speaker of the Illinois house of representatives, as first comptroller, and that of Samuel C. Wright, of Nevada, as superintendent of the United States mint at Carson City, Nev., were agreed upon.

Several internal revenue collectors were also selected and their appointments will probably be announced to-morrow.

Three new auditors of the treasury were likewise chosen, but as their several assignments have not yet been agreed upon the commissions were not signed.

Secretary Windom has appointed J. N. Patterson as superintendent of repairs under the treasury department at Philadelphia.

Irving G. Caldwell, of Ohio, and Richard W. De Lambert, of Kansas, have been appointed special agents of the interior department.

The president has appointed Frank C. Lovell, of New York city, to be pension agent at New York city.

More Pension Decisions.

WASHINGTON, May 10.—Assistant Secretary Bowen, of the interior department, has rendered several opinions of importance bearing on the question of the "line of duty."

In the case of Daniel V. Houser, who alleged that he received a fracture of the leg, by being pushed on the ice by a comrade, the pension office rejected the claim as not in the line of duty. Mr. Bussey holds that Houser was in the line of duty and directs that a pension issue.

Daniel Snyder is granted a pension for asthma. The case was rejected by the pension office on the testimony of several witnesses that he had asthma prior to enlistment. The medical certificate of discharge stated that Snyder had asthma to such a degree as to incapacitate him for duty, and Mr. Bussey says this evidence outweighs the other, and directs that a pension issue to Snyder.

Out On a Trip of Destruction.

WASHINGTON, May 10.—The United States steamer Yantic, now at New York, has been ordered to proceed to sea with a supply of torpedoes for the purpose of destroying derelicts and obstructions off the Atlantic coast in the track of ocean steamers and coasting vessels. She will be accompanied by the pilot charts of the hydrographic office showing the drift of these wrecks. The Yantic will sail a reasonable distance south of Cape Hatteras and return, as may be the most convenient, to Hampton roads, New York or Newport. Her instructions are to avoid destroying wrecks that can probably be saved.

No Fears for His Head.

WASHINGTON, May 10.—Commissioner Tanner has written a letter to Special Pension Examiner Shank, of Lima, O., refusing to accept his resignation, offered because he was not in political sympathy with the ad-

ministration. The commissioner writes to Mr. Shank that, wherever he has made a record, he has called for the record of the incumbent. Mr. Shank's record is good, and he says that Mr. Shank need not fear for his official head as long as he maintains the efficiency of the service.

The Duty Must Be Paid.

WASHINGTON, May 10.—Edwin Booth, the actor, recently appeared from an assessment of duty made by the collector at New York on some paintings imported for the Players' club, a society which, he claimed, was established for literary purposes and the encouragement of fine arts. Mr. Booth claimed that the paintings should be admitted duty free, but the treasury department has decided that the assessment was correct.

THANKS OF THE GOVERNMENT

Tendered to Hawaii for Official Assistance to Survivors of the Samoan Wreck.

WASHINGTON, May 10.—Secretary of State Blaine is in receipt of a dispatch from Mr. Merrill, United States minister at Honolulu, dated April 12 last, stating that on the 8th of that month a number of the survivors of the wreck of the naval fleet at Samoa reached Honolulu, where their presence created profound sympathy among the government and people of those islands.

In a note of April 6 to Mr. Merrill, the Hawaiian minister for foreign affairs, assured him of the deep sympathy of the Hawaiians with the distress which had thus fallen on the American people generally, and expressed an earnest desire that the former will avail himself of any possible means at his disposal of that government which may be of service to the officers and men, survivors of the wreck in question.

Mr. Merrill promptly returned the thanks of the government of the United States for this kind offer, and the secretary of the navy, to whom a copy of Mr. Merrill's dispatch has been forwarded by Mr. Blaine, supplements Mr. Merrill's note of thanks with courteous expressions of sympathy and making that the grateful acknowledgments of the navy department be appropriately communicated to the Hawaiian ministry's government. A copy of Mr. Tracy's letter has been sent to Mr. Merrill, in order that his wishes may be fittingly complied with.

RELIEVING THE UNFORTUNATE.

Victims of the Moreland Fire Being Cared for by Chicago Citizens.

CHICAGO, May 10.—Not a man, woman or child is smoking in the town of Moreland, situated in the west of Chicago, last night. The last house was yet burning when a committee of safety and relief was formed by the energetic citizens who had not been burned out, and the work of assisting the unfortunate began. By midnight the "household committee" had provided shelter for all that desired it, and if any one held goods that had not yet been moved to places of safety.

This morning every train into the place carried big baskets of provisions and clothing, and kind-hearted men and women to assist the unfortunate ones. Many of the people had a better breakfast this morning than they have eaten for many a day.

A subscription paper has been started by H. V. Ansin, one of the trustees of the old town, and the indications are that by night a goodly amount will stand to the credit of the homeless ones.

OVERDOSE OF MORPHINE.

Walter T. Logan Found Dead in Bed in His Arizona Ranch.

ALBUQUERQUE, N. M., May 10.—Walter T. Logan, a son of Thomas A. Logan, of Cincinnati, the eminent lawyer, was found dead in bed on Sunday morning at his ranch on the southeastern part of Apache county, Ariz. He was a member of A. L. Morrison's stock firm. It is believed he took an overdose of morphia to alleviate his pain, resulting from a cancer on his leg.

He was a nephew of Oliver and Celia Logan, well known in journalistic and editorial circles. Young Logan was a lawyer, but for some time was connected with The Albuquerque Democrat. He was 30 years old, and leaves a widow and one child.

PLENTY PEACHES.

Ex-Congressman Martin Says the Delaware Crop Will Be Large.

DELVILLE, Del., May 10.—At the annual meeting of the bureau of information and distribution the following directors were elected: John P. W. York, Dr. Henry Ridgely, E. R. Martin, J. J. Ross, John H. Hofferker, Morris Bernard and Jacob G. Brown.

Ex-Congressman Martin said this year's peach crop, if all reports are true, will be as large as to require all the agencies of distribution to enable growers to realize any profit.

IN CASE ON A TRAIN.

ROCHESTER, N. Y., May 10.—Mrs. Charles Simmons, wife of a Washington territory lumber merchant, while on her way to visit her aunt, Mrs. Eugene O'Brien, of New York, became violently lame. She insisted that some one on the train was trying to kill her, when she was placed in the hands of the police authorities and sent to the asylum until her relatives can be communicated with. Her little daughter, aged 5 years, who accompanied her, also seems to be mentally affected.

Execution Contest Postponed.

HARTFORD, Conn., May 10.—In the recent congressional contest in the Fourth Connecticut district, Miles had but 25 majority, which it was alleged would be overturned by a recount of the votes in the town of Westport. The six months during which, under Connecticut law, the ballot box must remain sealed having expired, a recount has been made showing that there was no error. Ex-Congressman E. W. Rogers, the Democratic candidate thereupon announced that he should abandon the contest.

Wanted to Be Sure of Death.

EAST SAGINAW, Mich., May 10.—Charles Goodrich, a book and shoe merchant here, committed suicide this morning by putting four bullets into his head. His health and business troubles are supposed to be the cause.

Forest Fire Damages.

Reports Just Coming In from the Burned District.

THE COUNTRY DEVASTATED.

Villages Entirely Wiped Out by the Conflagration, but a Heavy Rain Checks the Progress of the Flames and the Danger is Passed—Difficulty of Obtaining News.

MARQUETTE, Mich., May 10.—The forest fires on the peninsula have been raging with great violence for some days, but in isolated sections, and the reports have been exceedingly meagre. The heavy rains of the past twenty-four hours have effectively stopped the progress of the flames, and now the reports are coming in of damages done out on the Marquette, Houghton and Ontonagon home-steads lands, to which there has been such a rush of settlers.

The worst of the damage occurred Tuesday. The fire started about six miles from Bruce's Crossing, in the center of the new settlement. The wind blew a gale and the flames ran like a race horse. The settlers fled before it, making their way toward the railroad track, but the smoke became so dense that many were obliged to sink ditches and bury themselves in the moist soil for breath and to escape the intense heat. Some families are said to have walked the railroad track back and forth for hours, suffering for breath.

At Sen Nuli camp everything was burned, and the country for miles is but a blackened desert of buried stumps. Many of the settlers in the interior have not been heard from since the fire, and relief parties are now out in search of food and shelter. There will be much suffering for some time.

At 3 p. m. Tuesday a veritable water cloud burst over the scene of the fire, and the flames were speedily quenched. But for the rain the awful holocaust of Peshtigo in 1871 would have found its prototype in the woods farther north last Tuesday.

There are many wild rumors of burned families, but none are reliable. The Vulcan mine location, a small village known as Vulcan, two miles from Norway, was badly burned. The engine-house, twenty houses and several hundred cords of wood were destroyed. All wires have been prostrated for two days, and even now there is no direct communication with the burned district.

The village of Norway had a close call. It was surrounded by fire for twenty-four hours, and just as the rain came the fire-fighters had given up all hope of saving the village.

It is reported that Anthony, another new homestead town, is cleared out, but the report is not yet confirmed.

Twenty-seven Families Homeless.

ST. JOHNSBURG, Vt., May 10.—Fire at Danville yesterday destroyed twenty-seven families, leaving only the bank and hotel standing in the business portion of the village. Loss \$45,000; insurance, \$20,000. Twenty-seven families were made homeless, and lost almost all their effects. Among the buildings burned were the postoffice (including mail), town hall, Grand Army of the Republic and Masonic hall, town library and North Star newspaper office.

Telegraph Communication Shut Off.

NEOAGNER, Mich., May 10.—The destructive forest fire of Tuesday was partially extinguished by the rain of Tuesday night and Wednesday. All telegraph communication was cut off for twenty-four hours by the burning of poles. Twenty houses in the town of Vulcan were burned, and minor fires are reported at Doggett, Stanbough and other places.

Report of an Old Fire.

SHREVE OAK, N. Y., May 10.—A fire which originated in the oil room of the grocery store of Gilbert Darrow, on Main street, at 11 o'clock last night, caused a loss of \$28,000, of which P. C. Darrow, dry goods, lost \$24,000; Gilbert Darrow, \$1,000; Lewis, shoe building, \$2,000; Henderson, carriage, \$1,000; Methodist church, \$1,000.

Burned to Death.

ADRIAN, Mich., May 10.—Extensive wood fires are raging in this country. Stephen Carpenter, aged 62, while fighting the flames on his premises in Madison, Tuesday, was overcome and died of suffocation before assistance reached him.

A Big Fire at Findlay, Ohio.

FINDLAY, O., May 10.—The Findlay gold works, said to be the largest establishment of the kind in the United States, were burned yesterday, throwing 300 persons out of employment. The total loss is \$125,000.

Death of a Celebrated Priest.

SAN FRANCISCO, May 10.—News is brought here from Honolulu of the death of Rev. Father Daniel, widely celebrated as the superior priest of Molokai. He died at Kalama, Hawaii, on April 10 last. Father Daniel has been laboring under the liver complaint for the last fifteen years, where he contracted the dread disease, which at last cost him his life. The reverend gentleman was born in Belgium in 1840, and arrived in Hawaii in 1864.

All Classes.

BALTIMORE, May 10.—Bishop Parrot, of Baltimore, on Monday confirmed a claim which was unique at St. John's Episcopal chapel, Washington. It consisted of five colored candidates, and the sister-in-law of Father Daniel, widely celebrated as the superior priest of Molokai. He died at Kalama, Hawaii, on April 10 last. Father Daniel has been laboring under the liver complaint for the last fifteen years, where he contracted the dread disease, which at last cost him his life. The reverend gentleman was born in Belgium in 1840, and arrived in Hawaii in 1864.

Ex-Congressman Officially Ill.

NEW YORK, May 10.—Ex-Congressman Lyman K. Bass, of Buffalo, is stated to be much weaker to-day. His condition is very precarious.

TEN MEN KILLED.

Their Bodies Horribly Mangled in a Coal Shaft at Kaska, Pennsylvania.

POTTSVILLE, Pa., May 10.—At Kaska, William colliery, near Middletown, yesterday evening, the cage, containing ten miners, was ascending the shaft, when an empty car was pushed over the top of the shaft by two Hungarian laborers. The car struck the cage with terrible force, shattering it to pieces, and instantly killing every one of its occupants, whose mangled bodies were afterward found in the water at the bottom of the shaft.

The victims were: Hugh Carlin, Patrick McDonald, George Handel, John Pottovitch, Frank Strakovich, John Moore, Albert Dwyer, Edward Kurt and Stephen Matson and Assistant Mine Foreman Michael Boyle.

The mine is operated by the Alliance Coal company, and the shaft is 500 feet deep. Boyle leaves a wife and seven children. It was not his turn to ascend the shaft, but he had exchanged turns with another man. Pottovitch leaves a widow. All of the others were single.

There is great public indignation over the employment of stupid Hungarians in a position where their carelessness could be so disastrous. No calamity of a similar nature has ever before occurred in the region. There is thirty-five feet of water in the "cump," and the recovery of the bodies is slow work. At 7 o'clock last night only one body had been brought up. The colliery employs 500 hands, and is known as the "Big Vein."

Newly Married Minister Missing.

CHATTANOOGA, Tenn., May 10.—Word comes from the little mining village of Whitwell, Tenn., that Rev. W. H. Holbrook, of that place, has mysteriously disappeared. He was about 30 years of age, and a few weeks since was married to a handsome young woman bearing about a third of his years. On Tuesday he was missing, and no play is feared, as he was not in debt and was a prominent citizen and a man of good reputation.

Child Suffering from Hydrophobia.

CHATTANOOGA, Tenn., May 10.—The 14-year-old daughter of Mrs. M. L. Hawkins, a widow living on Middle creek, was taken some days since with what the attending physician pronounced hydrophobia. She has had several frightful paroxysms, and is in a very critical condition. She was not bitten by a dog, but last winter helped to take care of cattle which, it is supposed, died from the bite of a mad dog, and in this way became inoculated with the poison.

The Negro in the Episcopal Church.

CHARLESTON, S. C., May 10.—The diocesan convention of South Carolina of the Episcopal church, at Aiken, yesterday, temporarily settled the dispute as to the negro in the church by adopting an amendment to the constitution, under which the only limitation as to colored clergymen is that hereafter they shall be members of churches which shall be declared to be in union with the convention by a concurrent vote of both orders.

West Virginia Governorship.

CHARLESTON, W. Va., May 10.—There was nothing done by the legislative committee yesterday regarding the gubernatorial investigation, except to announce at the conclusion that no examination of the papers submitted by the contestants should be had until the legal points raised by counsel had been considered and determined. This matter will take several days at least.

Horrible Death of a Girl.

NEW BRUNSWICK, O., May 10.—At New Knoxville, a village five miles northeast of here, yesterday afternoon, a 10-year-old girl was found dead, with a rope around her neck, which she had playfully tied around her waist. The animal became frightened and ran away, dragging the unfortunate girl along for a quarter of a mile, death resulting almost instantaneously.

Never Recovered from a Rashery.

MIDDLEROCK, Mass., May 10.—The dead body of Hartley Wood, aged 85, a bachelor farmer on the outskirts of this town, was found hanging in his barn at 5 p. m. yesterday. About a year ago burglars bound his sister and himself, and robbed the house, giving a shock to his nerves from which he never recovered.

Woman Burned to Death.

JACKSONVILLE, Fla., May 10.—Mrs. Child, living near Kalamita city, Fla., was burned to death yesterday. Her house caught fire, and in attempting to save her clothing was ignited. When assistance reached her everything had been consumed from her person except shoes and a finger-ring.

Both Sidelined.

LANSING, Mich., May 10.—The bodies of Andrew Brown, who disappeared from his boarding house last Thursday night, and W. Baker, aged 74 years, who disappeared on Sunday evening, were found floating in Grand river this morning. Both undoubtedly committed suicide.

New Reservation to Be Opened.

PIERRE, Dak., May 10.—The commander at Fort Bennett has received orders from army headquarters to move the troops and vacate the post at a moment's notice. No reason can be assigned for the order unless the Sioux reservation is to be opened inside of sixty days.

Cutting Freight Rates on Coal.

BALTIMORE, May 10.—The cut on the Pennsylvania railway to \$2 a ton on bituminous coal to Philadelphia has been met by the Baltimore and Ohio with the same figure to Philadelphia, Wilmington and other competing points. The reduction takes effect May 15.

Scheme of Assistance for the Irish.

BOSTON, May 10.—At a meeting of the Irish National league here yesterday a suggestion that Irish manufactures be supported to the fullest extent practicable in order to keep the people of Ireland in their own land met with hearty support.

A Princeton Professor Wedded.

MORRISTOWN, N. J., May 10.—Professor A. F. West, of Princeton college, was married yesterday in the South Street Presbyterian church to Miss Lucy F. Randolph, daughter of the late United States senator Theodore F. Randolph.

Advices From Samoa.

Everything Quiet Up to the Thirtieth of April.

THE SITUATION UNCHANGED

More of the Shipwrecked Sailors in the Brought in San Francisco—An Estimated Strike Among the German Miners. Progress Made by the Samoan Conference—Other Foreign News.

SYDNEY, N. S. W., May 10.—Dr. Knappe, the late German consul at Samoa, has arrived here. Advices from Samoa up to April 30 state that the natives are quiet at the islands, though the political situation remains the same. At the suggestion of Matsana, Admiral Kimberly, the American naval officer, and Dr. Knappe proposed to Tannians to agree to maintain peace. This Tannians refused to do unless he was recognized as king.

The steamer Rockton, which will take 450 of the wrecked American sailors to San Francisco, was ready to sail on the 1st of May.

The American man-of-war Nipale had been fitted with a new rudder, to replace the one she lost in the hurricane, and was about to sail for Auckland.

Herr Stenfel, the German consul, appointed to replace Dr. Knappe, has arrived at Apia.

The British flag has been raised over the Swallow islands in the South Pacific by the captain of a British war ship.

Union Tannians declining to agree to a peace Admiral Kimberly issued a proclamation urging the natives to maintain peace.

An Extensive Strike.

BENTON, May 10.—The striking miners in the Westphalia district have held a meeting and resolved to maintain their demand for an advance in wages and reduced hours of labor. The miners of Belgium and Silesia have sent money to aid the strikers. The mine owners are alarmed at the prospect of outside help being given to the miners. The number of strikers is now estimated at 70,000. Many from works have been obliged to quench their furnaces. At a meeting of 6,000 strikers at Bochum yesterday it was resolved to insist upon the demands.

Prince Bismarck presided at a council called to consider the strikes in the Westphalia district.

It is reported that the strikers will appoint delegates to submit their grievances to the emperor.

Evictions to Be Resumed.

DUBLIN, May 10.—A special dispatch from Fairclough says that evictions will begin at Glasnevin on Monday. Much indignation is caused by the announcement of the landlord of estate from which the evictions will be made, that he will burn all the houses from which the tenants shall be ejected to prevent their regaining possession.

John Doolan, aged 89 years, who was evicted from the Oughter estate, has died from the shock of her removal.

The persons arrested for participating in the Glasnevin riot, in which Police Inspector Martin was killed have been charged with complicity in his murder by the queen's county special jury.

The Samoan Conference.

BERLIN, May 10.—The discussions of the sub-committee of the Samoan conference has developed a spirit of strong disunion, and but little progress has been made in formulating a scheme of government for the islands. One of the subjects discussed during the recent visit of the American delegate to the harbor of Apia, and plans were proposed for improvement thereof.

A Rifle Boiled in a Kettle.

PARIS, May 10.—The correspondence of L'Est states that it has reliable information that a rifle of Kurie recently attacked a wedding party in the Monch district, robbed the guests, and subsequently outraged the bride. After robbing themselves with the wedding feast they killed the bride and boiled her body in the pot in which the wedding meal had been cooked.

Paris Newspapers Sent for Libel.

PARIS, May 10.—The prosecutor general, M. De Montaigne, has brought action for libel against certain Parisian newspapers. The police court has decided that it is incompetent to deal with the case except where the articles printed affect the plaintiff as a citizen only, as in the case of The Press and the Government.

A Modern Committee Two Wardens.

STUTTGART, May 10.—An architect of this city, named Bosch, suddenly became insane, and, taking a hatchet, killed his sister. He then rushed from the house into the street and struck and killed a passer-by. After a desperate struggle the man was captured and held by soldiers.

Striking Firemen Pined.

LIVERPOOL, May 10.—Ten of the striking firemen on board the Italian liner steamer City of Chicago were arranged in the police court yesterday and fined on shillings each, with costs. The steamer then shipped fresh men in place of the strikers and proceeded on her voyage.

Foreign Notes.

Over 70,000 people attended the Paris exhibition yesterday.

The car-drivers of Prague are on a strike. There will probably be rioting.

It is believed that the deficit in the Italian budget will amount to 22,000,000.

Col. Frederick D. Grant, the new American minister to Austria, arrived in Vienna yesterday.

Ex-Mayor Hewitt is the Guest of the Duke and Duchess of Marlborough, at Blenheim Palace, Woodstock.

M. Laguerre has declined to serve as counsel for Perrin, who attempted the life of President Carnot last Sunday.

Owing to the strong anti-Semitic feeling in Vienna, Hungarian merchants refuse to buy grain of the markets of that city.

A Fund has been started in London for Capt. Murrell, who rescued the passengers of the Denmark. Already £300 has been subscribed.

Sessions and Congressmen Watson and Corbin, who were in the city, and published the matter.

FINANCE AND COMMERCE.

Quotations for the Money, Stock, Produce and Cattle Market for May 9.

New York.—Money 2 1/2 per cent. Exchange steady; government steady.

Currency notes, 121 bid; four coupons, 109 1/2 bid; four-and-a-half, 108 1/2 bid.

The stock market opened feverish and irregular. Attention was the weak feature. The stock declined 1 1/2 per cent. In the first hour on sales by Boston parties. Oregon Transcontinental on the other hand was the strong stock. It was quite heavily bought and advanced 3/4 per cent. The buying of the stock is said to be for the account of a certain local broad street house desirous of gaining control for stock for speculation purposes. Three stock exchanges were the features of the morning's trading. First, the stock, and then the wheat. It has been dull and featureless.

THEY & MANZ.

Gilbert Highwater, a colored horse thief who was arrested here by ex-Marshall Bueneke and sent to the penitentiary from Morrow county in 1887, for a four years' term, was paroled by the penitentiary managers on the 8th inst.

Some excitement was caused on Main street Thursday afternoon by a horse, which was attached to a buggy and belonged to a stranger, making a short dash up the street in a vain endeavor to run away, but after covering a short distance the animal was stopped, with no damage.

Our two great base ball teams will meet again next Monday afternoon at the President grounds. The grocers are not satisfied with their recent defeat by the ex-pennmen and will again struggle for the laurels. There are some charming players connected with both teams that would furnish teams of greater notoriety, and they will no doubt play an exciting and deeply interesting game. We learn that the fair-weather and magnificent umpire, Sam Oppenheimer, will again govern the game.

Among the many historical spots in Marion county, perhaps one of the most interesting is a cemetery, wherein lies the remains of a number of soldiers of the war of 1812, who were killed on the spot, a couple of miles west of town, on the farm of Mr. B. Casie. A fine small piece of ground which composes the graveyard, belongs to the government, and is mentioned in the deed which Mr. Casie received for his farm. Jack Prew and Henry Munford have written to Washington, with a view to learning, if possible from the records, the names of those buried here, and they have also suggested that it be remembered and appropriately decorated on Decoration day.

The Order of Druids.

The Order of Druids, of this city, held a public installation on Thursday night, the largest ever in the order, the Grand Arch, of Dayton, O., being present. The members were all present, accompanied by their ladies. The installation of officers was performed, followed by addresses, notably that of the Grand Arch. Then the party repaired to John Cull's restaurant where an elegant banquet was spread, a feast fit for a king. The good things imaginable—a credit to Mr. Cull as a caterer and highly enjoyed by the guests.

Druids is one of the oldest orders in existence and in early times their meetings were held in groves instead of halls as at present, hence the lodges are called groves. Marion Grove is in a prosperous and gratifying condition.

WEATHER INDICATIONS.

LAWN MOWERS!

If you want to keep your lawns in shape own your own mower.

We keep the Philadelphia and Buckeye, the two best mowers made, and they are cheaper than inferior machines.

C. B. KLING & CO.

Tomorrow is silverware day—10 percent off of present silverware prices. We have the best goods of the Turney stock on hand yet—the cheapest sold first. We need all the room to show the Clement Bros' stock of goods, and will close out the Turney stock at a great sacrifice.

Mother, bring in the boys and get them a nice "Sunday hat." We have them at 40 and 50 cents which are retailed at 75 cents and \$1 in our city. For "everyday" we have them at 10, 15 and 25 cents. To protect you from the warm sun get one of our gold-headed, thin black umbrellas, from \$1.21 to \$1.41, according to size.

Men and brethren, why wear a heavy wool hat when you can get a fine "manilla" or "Mackinaw straw" for 40 and 50 cents? Mechanics, look at our "French (easton) flannel," something new, only 41 cents. You will buy and like them.

Leave your order for a pair of our \$4 all-wool pants. Come and see us.

JOHN F. CULLER.

A Tribute to Boone.

The Mansfield Shield winds itself up and lets go as follows: "Zanesville papers are teeming with double-headed local matter from the facile pen of Col. Alby Ether Boone, who now proposes to furnish gas to citizens of Zanesville at cost. He wants to sell the citizens non-assessable, duplex, back action stock in the scheme, which he insures will pay a 12 1/2 per cent. dividend. The colonel is evidently working another chestnut. If he had a patent inexhaustible condenser by which he would utilize the wind wasted by him and some of his co-laborers in his Black Diamond railroad system (for he might be able to furnish gas for the entire population of Ohio for all time."

Another Junction Wreck.

Another railroad accident has been added to the number which has been witnessed at the C. and T. crossing.

Thursday night about 9:30 o'clock, as C. and T. train 21 was coming north, they struck an empty coal car which was standing on the crossing, left there by the N. Y. P. and O. yard engine. The car was taken up by the pilot of the C. and T. engine, and carried a distance of an hundred feet up the track, taking with it the signal poles. The target house was completely demolished, and the watchman fortunately managed to escape before the car struck. It is impossible to learn the exact amount of damage done.

Normal Notes.

The trees are being taken out of the streets and alleys and fences built around lots which adds very much to the attractiveness of College Hill.

Dr. Winter, of Caledonia, a college classmate of Prof. Yale and Buckler, made them a very pleasant visit last Tuesday.

The decree has gone forth that no stock shall be allowed to perambulate the grove this year. No more it be.

M. B. Chase will address the Philomatheans this (Friday) evening.

Examinations are almost over, for which we are truly thankful.

Notice, Contractors.

Sealed proposals will be received until 5 p. m. Tuesday, May 14th, for stone work on foundation of building to be known as Union block. Right reserved to reject any or all bids. Bonds required. Plans and specifications will be found with W. H. Schaffner, at Marion County bank.

McKENNEN, GRACELY, SCHAFFNER.

Has Arrived.

Mr. G. Ryder, the Jeweler, has arrived, and is now busily engaged in opening up his elegant store at the old stand formerly occupied by W. A. and M. A. Turney. Don't fail to attend the opening, Saturday, May 11th, and, if you contemplate buying anything in his line, it will pay you to wait until you see his fine stock.

Will have a large supply of straw lemons Saturday morning. COPY & STONE.
